Experience Certificate

To whom it may concern,

We hereby confirm that Sherif Ibrahim Mourice Ibrahim was employed by FigPii from 4 November 2024 to 23 September 2026. He joined the company as a Front-End Developer Intern and was subsequently promoted to the position of full-time Frontend Developer.

During his employment, Sherif developed and implemented front-end features and A/B testing variations using JavaScript and CSS and configured experiments across more than 20 client e-commerce websites. His responsibilities included custom WordPress and Shopify development, building responsive web interfaces for client campaigns, and optimizing front-end performance and cross-browser compatibility.

He also worked with CRO specialists, his reporting manager, and cross-functional colleagues to implement UI/UX improvements, support conversion optimization initiatives, and deliver tested user-interface changes.

This certificate is issued at his request as confirmation of his employment, positions held, and principal responsibilities.

For any additional information, please contact khalid@invesp.com.

Regards,

Khalid Saleh
CEO, FigPii
